Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a disabled person who uses my prepaid cell phone for calls in my area or traveling communications within my state. I am on an extremely limited budget. I feel a feel imposed by the government is a way of limiting my freedom. Why should all the people pay for those who use the service for pleasure and interstate communication? Don't we have a say or don't we matter if we don't have money to waste? Stop robbing the poor to make things "easy for all" I don't have \$1.00 or even \$.50 to play with at the end of a month. Let the fair continue to be fair & find another way to "cover your costs"!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
